

Slate Creek Trail System (+ other local Trails)

Trails-Bike Difficulty Rating

- Easy 
- More Difficult 
- Very Difficult 
- Access Road/Trail 
- Trail Direction Arrows 

The Slate Creek Mtn. Bike Trail Project was made possible through a partnership with the U.S. Forest Service and the South Summit Trails Foundation. Local, State, and Federal grants, including many donations made this and other similar projects possible. Countless volunteer efforts have also helped to construct and care for this trail. Please respect all Forest Service rules and trail signage. Because of wildlife found within this area, including agricultural livestock grazing permits, dogs should be kept under control!
